

## **The National Space Club – Huntsville 2008 North Alabama Engineering Scholarships**

The National Space Club – Huntsville is proud to announce the offering of its Annual Engineering Scholarship Program. It is the club's hope that by providing financial incentive, more students will follow an aerospace curriculum with the intent of becoming practicing engineers and scientists. The scholarships are intended to promote 1) careers in the aerospace industry, and 2) the pursuit of related engineering or science degrees at a university in the North Alabama area. This program is targeted at current students enrolled at an ABET-accredited university in pursuit of an engineering or science degree that would reasonably lead to a career in aeronautics or astronautics. Eligible students will need to apply to the NSC Scholarship Committee. Applications can be found at the following website:
